Apostolic Decrees **Jim Goll & Chuck Pierce, June, 2005**

Jim Goll:

We declare that this is the birthing of authentic apostolic Christianity, this is the birthing of the second apostolic age, this is the birthing of a pure prophetic movement. This is the time where the healing wells are cleansed and restored.

Chuck Pierce:

Father we come right now and we release your covenant plan- We say the identity of the church in this land [Canada] will come to the fullness of its identity and present the anointing in a way that is very unique. We say that people will come from all over to experience the move of your glory. Lord, we say right now there is a release of sound and there is a release of wind. This is the beginning of the move of God to restore healing into the Church.

Lord, I thank you from your covenant land you said that the first nation to experience a move of your glory will be this nation. We release it right now!!

Jim Goll:

Because of the sound problems I want to declare again what I was saying earlier, there are 3 major things. This is the beginning of the second apostolic age-that is monumental. This is the beginning of the second apostolic age, for Canada and for the world. This is the beginning of the healing of the prophetic stream, that a pure prophetic stream would ripple across this nation and this is the hour for the restoring of the healing mantle that came forth even as a parallel movement to the later rain movement, there was another movement of the healing/deliverance movement that combusted forth across this and across North America, and from these nations to the four corners of the earth. And so even once again, twins, twins, twins are being born, healing and deliverance and a prophetic pure stream that this time shall not be thwarted, but this time shall be received and brought forth under apostolic grace into fullness of maturity.
